

## **Certification and Environment**

Nordic Timber Scandinavia AB is certified through membership in the PanCert AB producer group certificate Chain of Custody for PEFC-CoC and FSC-CoC/CW

- PanCert AB PanCert - <https://pancert.se>
- Here you can find all information about the certificate(s) we are connected to.
- In the case of criticism of our Chain of Custody, please contact us at the company.

## **ENVIRONMENTAL POLICY**

Nordic Timber Scandinavia AB must, as a consumer of forest raw materials and with a wood processing industry, work to ensure that the business is conducted in as gentle a manner as possible, for the environment and for the employees.

We must comply with current legislation and follow PEFC and FSC requirements and intentions, and as far as possible make sure that the raw material does not come from illegal or unauthorized harvesting by the authorities, forest areas where traditional or civil rights are violated, forests where high conservation values are threatened, genetically engineered trees or natural forest that has been felled for the purpose of using the area for plantations or non-forest land use.

Comply with the ILO's core conventions regarding:

- Child labour
- Forced labour
- Discrimination in the workplace
- Join the union, and collective agreement

The business must be conducted and improved in such a way that the possible negative impact on the environment is reduced.

The raw material must, to the greatest possible extent, come from environmentally friendly certified forestry. We must work to increase this volume.

We must responsibly fulfil our commitments to employees, society, the environment, and contractors.

The staff must be trained and informed so that they can fulfil the above requirements and intentions.

Daan Jongerling  
CEO / operational manager
